Technical Update: Crystal Clear & Safe

Our technical consultant Darryl recently spearheaded a vital upgrade to our antenna atop the Sydney Water tower. Prompted by high radiation readings, the crew discovered damaged cabling, replaced and relocated the antenna. The result? A perfectly safe environment for technicians and a stronger, clearer signal for all our listeners!

Fresh Sounds: New Programs to Catch

Our schedule is growing! Make sure to tune in to our newest shows:

- Get Ready for This: Jennifer Parry brings you the best of the 80s and 90s (Wednesdays at 10 am).

A "Big Bang" Retirement for Paul

- Our very own Paul McGrach wrapped up his professional career in spectacular style! His final day featured a high-energy live broadcast, a front-page feature in the *Leader* local paper, and a heartwarming celebration filled with tributes from listeners and friends.
- While he's hanging up his "work" hat, he isn't leaving the studio. We are thrilled to announce that Paul returns to his Breakfast Club show as a volunteer starting Monday, May 4th. Welcome back, Paul!

Celebrating Our Legends

- We recently took a moment to honor our Life Members - dedicated individuals who have served the station for over 20 years. These presenters have poured two decades of passion into serving our community, and we are incredibly grateful for their amazing commitment.
